## 1. INTRODUCTION

---

On 18 September 2019, the President confirmed the country's commitment to addressing gender-based violence and femicide, in response to social activism across the country against the inadequate response to the scourge. He announced the roll out of immediate measures in the next six months to fast track a more medium term approach to addressing gender-based violence and femicide to be captured in the National Strategic Plan. This document, alongside the narrative, budget and M&E Framework sets out the detail of the Emergency Plan.

## 2. GOAL OF THE PLAN

---

The overall goal of the *Emergency Plan* is to address the systemic failure to respond to Gender-Based Violence and Femicide (GBVF) firstly by the state and then more broadly by society.

## 3. OUTCOMES

---

The Emergency Plan will work towards achieving the following outcomes:

- 1.1 Improved access to justice for GBV survivors;
- 1.2 A better informed public about laws, rights and responsibilities underpinned by a public education campaign around survivor's rights (women, children and LGBTQI+ persons) under the law, challenging the use and acceptability of GBV, patriarchy and related forms of discrimination and inequalities;
- 1.3 Improved access to care, support and prevention services and interventions through strengthened support for those involved in response and prevention, including civil society stakeholders;
- 1.4 Strengthened accountability and architecture to adequately respond to the scourge of GBV; and
- 1.5 Increased access to economic opportunities that set out to meaningfully address women's social and economic vulnerability.

The respective interventions that will be rolled out between from October 2019 and 31 March 2020 are captured in the planning table below and span (i) amending and fast tracking legislation; (ii) strengthening human resource capacity, both through additional person power as well as capacitating and supporting those involved in service delivery; (iii) improving and increasing infrastructure; (iv) resourcing and supporting those involved in response, care and support, particularly civil society; (v) challenging harmful social norms through a communication plan and prevention interventions and (vi) bolstering the architecture and gender machinery to respond.

## 4. KEY INTERVENTIONS AND MILESTONES

---

As captured in the table below, the following are the 5 key areas of interventions that will be rolled out in the next six months to realise the above outcomes:

- 4.1 Access to justice for victims and survivors;
- 4.2 Change norms and behavior through high-level prevention efforts; and
- 4.3 Urgently Respond to Victims and Survivors of GBV
- 4.4 Strengthen accountability and architecture to adequately respond to the scourge of gender-based violence; and
- 4.5 Prioritise interventions that facilitate economic opportunities for addressing women's economic vulnerability.

## 5. DELIVERY APPROACH AND METHODOLOGY

---

The extent of Gender Based Violence (GBV) and Femicide in South Africa render it a national crisis which requires an urgent and rapid response. This requires *agility, responsiveness and capability* to fast-track, monitor and assess potential and actual impact of all action taken in implementation of the ERP. In order to effectively deliver commitments made in the ERP, the work and actions of the IGBVF-SC will be guided by common principles of action underpinned by its collective efforts towards eradication of gender based violence and femicide. The principles include amongst others: *i) accountability and transparency; ii) striving towards building multi-sectoral cohesion and integration"; iii) promoting diversity and cultural differences, human rights-based and evidence-based approaches grounded in imperial evidence and rigorous methodologies; and iv) building alliances with diverse partners*. This plan supports synergies and mutual reinforcement between these common principles of action.

ERP initiatives can be leveraged to promote more equitable and representative multi-stakeholder processes. These in turn would result in outcomes that take into account the genuine and pressing concerns of all partners – which means greater and more effective positive impacts on the lives of their beneficiaries, their households and communities, and ultimately for the nation.

## 6. ACCOUNTABILITY, ROLES, RESPONSIBILITIES AND RESOURCES

---

### 6.1 Interim Gender-based Violence and Femicide Steering Committee (IGBVF-SC)

Strengthened accountability mechanisms are essential for effective implementation of the Emergency Response Plan (ERP). This requires clarity on roles and responsibilities and adequate tracking and provision of oversight. This section highlights what will be done to strengthen accountability over the time frame of this ERP.

As reflected in the Terms of Reference of the Interim Gender-based Violence and Femicide Steering Committee (IGBVF-SC), the Steering Committee is required to respond to the GBVF/VAWG crisis facing the country by providing a strategic and operational holding space to take the outcomes of the Presidential Summit on GBV and Femicide forward, until a permanent national multi-sectoral coordinating body (NMCS) is established. Consequently, the IGBVF-SC has overall responsibility of overseeing effective implementation of the ERP through: a) providing strategic guidance and leadership; b); reviewing, monitoring and evaluating the progress on implementation of the ERP; c) ensuring adequate budgeting and resourcing for efficient effective implementation of the ERP; and d) fostering transparency and accountability of key role-players and stakeholders.

## **6.2 Technical Working Groups (TWGs):**

With regard to responsibility for achievement of ERP results/outcomes, ultimate responsibility lies with technical working groups (TWGs). Mechanisms are needed to hold the government departments and civil society organisations (CSOs) and other partners to account for: i) implementation of ERP interventions; and (ii) responsiveness of partner institutional systems, policies and operations.

The IGBVF-SC will set up technical working groups based on ERP intervention pillars that are tasked with facilitating and championing execution of the ERP. The Team Member's role is to successfully perform the tasks that have been allocated, keeping the IGBVF-SC informed of progress as well as any urgent issues that may arise that require rapid response.

The responsibilities assigned to individual TWG members may vary but typically will include: a) understanding the purpose and objectives of the ERP project; b) driving qualitative and timeous delivery around specific ERP outputs that are aligned with the changes the plan is setting out to achieve; c) flagging critical operational and strategic issues that may compromise delivery on the plan; d) building synergies across the different spheres and interest groups around the specific areas; (e) building a firm foundation for rolling these areas out within the more long-term structure and (f) contributing towards meaningful communication, positive motivation and forward movement in a common direction. *Overall meeting format:* the TWGs will be self-directed and have flexibility as to how and when to meet (in person, teleconference, videoconference, etc.).

The result-based management (RBM) is further embedded in the ERP through the Monitoring and Evaluation Framework (M&E) and therefore provides increasing clarity on objectives, expected outcomes, indicators and targets. The IGBVF-SC strives towards building multi-sectoral cohesion and integration and stresses transparency and accountability. Internal mechanisms will be developed to provide established review procedures on overall performance, regular monitoring and reporting. Over the ERP period (6-months), focus will be on making more systematic and incremental strengthening of

current reporting mechanisms, in order to provide more comprehensive oversight on ERP performance and progress.

### 6.3 Implementing Partners: Government Departments and Civil society organisation (CSOs)

The power of partnership is harnessed through stakeholder commitments and collective action. We all have a role to play in successful implementation of the ERP. The responsibility for overall operationalization and implementation of the ERP rests with government departments, CSOs and other strategic partners including the private sector, labour and FBOs. Their functions and tasks include but are not limited to: i) advocacy and facilitating active community participation; ii) social mobilization for participation in behaviour and norms change initiatives; direct provision of survivor-centric post violence care (PVC) and psychosocial services (PSS); engagement and outreach to marginalized populations; providing training and capacity building. The main accountability monitoring goals and chief responsibilities for implementation of the ERP are summarized in the following table:

#### Accountability monitoring mechanisms

Accountability Monitoring Goals	Chief Responsibility
A schedule for regular oversight will be established on the organizational performance regarding ERP;	TWGs
Strengthened individual and collective accountability at each level – from government department to CSO staff;	IGBVF-SC;
Increased monitoring of ERP performance and outcomes in plans and programmes taking place, including strengthened reporting within existing reporting schedules;	TWGs, together IGBVF-SC, supported by the DPME;
Increased knowledge base and recording on results and good practices for dissemination on ERP lessons and relevant information, findings or results;	IGBVF-SC, StatsSA, Technical Advisors and Partners: CGE and research institutions;
A monitoring system of the ERP will be set in place to examine how implementation of interventions are taken into account among programme grantees (CSOs) and participating government departments.	IGBVF-SC , DPME
Monthly reporting of ERP outcomes to the Parliament, Cabinet, NGM and public;	Presidency, DWYPD, GCIS,

The table below indicates the key roles and responsibilities for advancing implementation of the ERP, capacity building and partner NGO programmes/projects. It specifies different stakeholders and role-players and what their particular responsibilities are.

All government and partner CSOs, private sector, Chapter 9 Institutions, academic and research institutions, international partner agencies are accountable for implementation of the ERP.

## Roles and responsibilities for enhancing gender equality in CDS work

Teams	Implementation Role and Responsibility
IGBVF-SC	Ultimate responsibility for ERP implementation and monitoring organizational performance;
IGBVF-SC and all responsible government departments	Accountable for implementing and monitoring ERP in its respective strategic objectives, and for ensuring that adequate human and financial resources are allocated to support service delivery;
<b>IGBVF-SC</b> , government departments, CSOs, private sector and all other implementing partners	Accountable for ERP outcomes and indicators within agreed programme priorities, including working with communities to strengthen capacity of staff and programme grantees (CSOs);
IGBVF-SC and all responsible government departments	In implementing responsibilities delegated by Cabinet through the ERP, accountable for ensuring that adequate human and financial resources are allocated to achieving ERP outcomes and indicators in programme areas;
IGBVF-SC and GCIS	Accountable for promoting and popularising the ERP (programmes and projects);
IGBVF-SC, DPME, DWYPD, NT all relevant government department	Accountable for playing a catalytic and supportive role to programme grantees to effectively implement the ERP including input to analysis, planning, resourcing, implementation, review and reporting;
Presidency, IGBVF-SC, TWGs, DWYPD	Accountable for playing an oversight, catalytic and supportive role to assist the process of implementation of ERP projects;
Gender Specialist	Accountable for playing an oversight, catalytic and supportive role to assist the process of gender mainstreaming in respective of technical assistance provided by any (other) service provider;
Technical Advisors and Partners;	Accountable for supporting implementation of the ERP through advisory services, capacity building and knowledge sharing; coordinating and supporting achievement of the IGBVF-SC; and providing oversight on mainstreaming performance through regular stocktaking and reporting to the public and key stakeholders;

### 6.4 Human and financial resources

The Department of Women, Youth and Persons with Disabilities (DWYPD) will continue to oversee, guide and work in collaboration with the IGBVF-SC, including relevant government departments in ensuring the successful implementation of the ERP. The IGBVF-SC Secretariat Unit led by a Senior Project Manager and an Administrative Officer provides technical and administrative support to the IGBVF SC.

## 7. MONITORING AND EVALUATION, REPORTING AND KNOWLEDGE MANAGEMENT

---

### 7.1 Monitoring and evaluation and reporting mechanisms

Tracking and reporting on implementation of the ERP (programmes/projects) is given high priority by the IGBVF-SC. The primary responsibility for monitoring and reporting on progress lies with government departments and CSOs, supported by the IGBVF-SC, while evaluation requires active involvement of the DPME. The role of IGBVF-SC is twofold: to,

- (a) Support improved monitoring and reporting on the ERP in all monitoring, implementation, and reporting efforts and to take the lead in coordinating the process; and
- (b) Provide strategic advice on implementation, reporting and monitoring of specific to the ERP interventions.

Each TWG will be reporting on the ERP programme and budget's immediate outcomes – **“increase capacity of implementing partners to develop integrated projects and programmes to advance implementation of the ERP”** in line with the M& E Framework; and according to the agreed reporting cycle.

A particular focus will be on (i) reporting on capacity building of CSOs, Community Care Workers (CCWs) and others rolling out programmes as well as (ii) ensuring that the training that is rolled out is embedded within a paradigm that promotes transformational and feminist attitudes and approaches to gender equality, gender-based violence and service delivery. The TWGs with the support of DPME will establish **“quality assurance mechanisms”**. Develop monitoring, data collection and reporting tools to ensure that users get guidance on ways to prepare ERP programmes and implementation reports. Where possible and appropriate, the M&E and reporting TWG will be encouraged and supported to carry out baseline studies and to strengthen indicators for measuring results. There will be an independent evaluation of this Framework at the end of 6-months, with the aim of using the lessons learnt and outcomes of the ERP to prepare for implementation of the GBVF National Strategic Plan (NSP). The ERP assist in institutionalising a gender based violence and femicide management system that includes accountability and coordination of efforts; and strengthen M&E gender responsive planning, budgeting, monitoring, evaluation and auditing (GRPBM&EA) institutional mechanisms across sectors.

## 8. EMERGENCY PLAN OPERATIONAL MATRIX

SECTION WITHIN PLAN	INTERVENTION	INDICATOR	TARGET	LEAD DEPARTMENT	SECTION BUDGET ALLOCATION
<b>Access to justice for victims and survivors</b>	2.1.a Clear all backlog of all DNA samples at forensic laboratories related to GBV and femicide especially sexual offences cases	Number of backlog cases cleared	Reduce GBV related forensic cases backlog from 16 000 to 5000 by 31 March 2019	SAPS (Forensic Services)	<b>R 394 849 207</b>
		Forensic Science Laboratory (FSL) System enhancement	FSL System enhancement to track the processing of GBVF-related cases developed by 31 March 2020	SAPS (Forensic Services)	
		Percentage of routine case exhibits (entries) finalised	75% of routine case exhibits (entries) processed within 35 calendar days	SAPS SAPS	
	HR Plan for Family Violence, Child Abuse and Sexual Offences (FCS) capability developed	Develop HR Plan to improve and strengthen the capacitation of the FCS units by 31 October 2019	SAPS (Organisational Development / Detective Service)		
		SAPS to communicate the personnel requirement to the DPSA, to bolster capacity of the FCS units by 31 October 2019			
Percentage of current (2019) new entry intake allocated to the FCS capability	6.24% of 5 000 new entrants (312) currently under training to be allocated to the FCS capability by 31 December 2019	SAPS (Human Resource Management)			

SECTION WITHIN PLAN	INTERVENTION	INDICATOR	TARGET	LEAD DEPARTMENT	SECTION BUDGET ALLOCATION
Access to justice for victims and survivors	2.1 b Setting up a laboratory for DNA testing in the Eastern Cape	Procurement of services approved	Procurement process completed by 31 March 2020	SAPS	
	2.1 d Prioritization of backlog cases related to GBVF, particularly the domestic violence and sexual offences cases ;	Database of all outstanding GBVF – related cases developed and populated by target date	Establish database of all outstanding GBVF – related cases (including cold cases) by 31 December 2019	SAPS (Detective Services)	
		Inventory of logged outstanding cases at prosecutorial levels developed by target date	Develop an inventory of logged cases at prosecutorial levels not heard in court by 30 October 2019	NPA	
		Prioritisation of GBVF backlog cases in existing backlog courts by target dates	GBVF backlog cases prioritised by 31 March 2020	DOJ&CD Judiciary NPA SAPS	
	2.1.e Review and act decisively within a specific timeframe on pending complaints against police officials, and prosecutors in matters related to GBVF cases	Reviewed National Instruction on and Standard Operating Procedure on Service Complaints against the police officers	Review National Instruction on and Standard Operating Procedure on Service Complaints by 31 March 2020	SAPS (Civilian Secretariat)	
		Complaints against prosecutors relating to GBVF prioritised	100% of complaints related to gender-based violence prioritized for immediate intervention within 7 working days	NPA
