## NEW WORLD FOUNDATION

New World Foundation (NWF) is a non-profit organisation based in Lavender Hill in the City of Cape Town. The NPO focuses on restoring hopelessness, injustice and combating violence in the Lavender Hill community. This is done through programme services such as an educare, community mobilisation and advocacy, safety for women and children as well as education for work.

NWF received grant funding to the value of R300 000, 00 from the National Development Agency (NDA) through Criminal Asset Recovery Account (CARA) funds to implement gender based violence and femicide (GBVF) programmes. Through the programme, which builds on community strengthening and livelihoods, building hope, justice and peace in a context of increasing GBVF, 325 beneficiaries were reached.

GBV project deliveries included awareness training and dialogues for community members, case finding, counselling and support, youth workshops and support groups amongst other activities. Thus far only half of the funding was utilised in 2021. The second tranche will be utilized to implement programmes from July to December 2022.
