## 7. EXPLANATION OF THE SCORING REQUIREMENTS AND SCORING

### METHODOLOGY

#### 7.1 Technical approach and methodology

The technical proposal must respond to the proposed scope of work, project design and outline the proposed approach and methodology that will be used to carry out the assignment. A proposed work plan complete with time frames must be included, and where relevant and appropriate, propose the scope of work and/or modifications to the scope of work. The technical proposal must clearly articulate what the tenderer is offering to provide for the price tendered in the pricing data.

Tenderers must such explain their understanding of the objectives of the assignment and the NDA's stated and implied requirements, highlight the issues of importance, and explain the technical approach they would adopt to address them.

The technical proposal should explain the methodologies, which are to be adopted, demonstrate the compatibility of those methodologies with the proposed approach (for instance, the methods of interpreting available data carrying out investigations, analyses, and studies; and comparing alternative solutions) and address any modifications to or fully develop the scope of work proposed by the NDA. The approach should also include a quality plan which outlines processes, procedures and associated resources, (including any nominated subcontractors and specialists) applied by whom and when, to meet the requirements. Accordingly, this portion of the approach paper should clearly articulate the project deliverables.

The technical proposals will be scored using the approach below:

<b>Score in points</b>	<b>Technical approach and methodology</b>
<b>0-9</b>	The technical approach and / or methodology is poor / is unlikely to satisfy project objectives or requirements. The technical proposal does not include most of the proposal requirements listed above. The tenderer has misunderstood certain aspects of the scope of work and does not deal with the critical aspects of the project
<b>10-14 points</b>	The technical proposal is generic and not tailored to address the specific project objectives and requirements. The approach does not adequately deal with the critical characteristics of the project. The quality plan is too generic
<b>15-20 Points</b>	The approach is specifically tailored to address the specific project objectives and requirements and is sufficiently flexible to accommodate changes that may occur during execution. The quality plan is specifically tailored to the critical characteristics of the project
<b>20-30 points</b>	Besides meeting the "good" rating, the important issues are approached in an innovative and efficient way, indicating that the tenderer has outstanding knowledge of state-of-the- art approaches. The approach paper details ways to improve the

	project outcomes and the quality of the outputs
--	---

Score in points	Work-plan Requirements
0-2	The activity schedule omits important tasks or the timing of the activities and correlation among them are inconsistent with the approach paper. There is lack of clarity and logic in the sequencing.
3-4	All key activities are included in the activity schedule, but are not detailed. There are minor inconsistencies between timing, project deliverables and the proposed approach.
5- 7	The work plan fits the approach paper well; all important activities are indicated in the activity schedule and their timing and sequencing is appropriate and consistent with project objectives and requirements. There is a fair degree of detail that facilitates understanding of the proposed work plan.
8- 10	Besides meeting the "good" rating, decision points and the sequencing and timing of activities are very well defined, indicating that the tenderer has optimized the use of resources. The work plan permits flexibility to accommodate contingencies.

## 7.2 TENDERER'S EXPERIENCE

Tenderers must provide a brief description of their company's experience in the provision of services and requirements as articulated in this document. The description should be put in tabular form with the following headings:

Client contact person and telephone number	Description of work (service)	Value of Combined Portfolio (in Rand value inclusive of VAT)	Number of Years Servicing Client

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

(Bid Number and Description)

in response to the invitation for the bid made by:

\_\_\_\_\_

9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

**<sup>3</sup> Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.**
